The purchasing entity shall make a good-faith effort to pay within thirty (30) days after date of certification. Payments may be made via a purchasing entity's "Purchasing Card".

In the event an order is shipped incomplete (partial), the purchasing entity must pay for each shipment as invoiced by the contractor unless the purchasing entity has clearly specified "No Partial Shipments" on each purchase order.

C. Payment of Taxes

Contractor invoices charges for Services as soon as possible after the Services are provided; but Contractor may invoice Purchasing Entities for usage and charges that occurred prior to the close of an invoicing cycle if they were not previously invoiced to the Purchasing Entity. If a Purchasing Entity is invoiced for usage incurred during a prior invoicing cycle, those minutes will be applied against the Service Plan minutes for the current invoicing cycle. However, if a Purchasing Entity changes its Service Plan between the time the usage was incurred and the beginning of the current invoicing cycle, those minutes from the prior invoicing cycle will be charged at the applicable per minute overage rate set out in the Service Plan in effect at the time the usage was incurred. Invoicing cycles are approximately 30 days in length. Invoicing cycle and dates may change from time to time during the term of the agreement. Certain Service Plans do not include itemized message transmission detail, even for measured service. Other Services are invoiced on a recurring monthly flat rate charge without any itemized message

transmission detail. Purchasing Entity must promptly notify Contractor in writing of any change in the Purchasing Entities' invoicing address. If Purchasing Entity changes or adds a different Service Plan or service feature to an account and the change is effective before the start of the Purchasing Entity's next full invoicing cycle, The Purchasing Entity will be invoiced a prorated amount for the period during the previous invoicing cycle that the new Service Plan or service feature was effective. "Roaming" occurs when a call is made or received on a wireless network that is not a part of the contractor's Network. Contractor phones are specifically designed and engineered to work only on the contractor's Network. Contractor's phones and devices work on other CDMA PCS providers' systems only when a roaming agreement is in place between the contractor and the other providers. Dual-mode contractor phones will work on both a CDMA PCS provider's system (in addition to the contractor's Network) and a

wireless analog telecommunications provider's system only when roaming agreements are in place between contractor and the other providers. If no roaming agreement is in place, Purchasing Entities may be able to place roaming calls "manually" by using a valid credit card. Certain features are not available when roaming. Roaming rates may be different from and higher than the rates for calls on the contractor's Network. Roaming charges are invoiced according to the practices of the roaming service provider and there may be delays before contractor posts them to a Purchasing Entity's account.

The Purchasing Entity must notify contractor's Customer Care within 24 hours of the disconnection to request credit for the call.

55. Voice Command

The Contractor's Voice Command feature is an optional service that allows users to place calls without manually dialing by using speech recognition technology. Calls to 911 or similar emergency numbers cannot be placed through the Voice Command feature. Airtime and applicable long distance charges for a call completed from a phone that is dialed using the Voice Command feature begin when the TALK or similar key (including the ## keys for making subsequent calls) is pressed or activated and end when the call is terminated by hitting the END key or by returning to the Voice Command platform. If a subsequent call is initiated and completed without leaving the Voice Command platform, a separate charge for that call will begin from the time the previous call was terminated. Airtime and applicable long distance charges will be applied to the entire length of a completed call initiated from the Voice Command feature, including the entire amount of time spent interacting with the Voice Command platform. Using Directory Assistance to input names into the Voice Command address book will incur additional charges. Details on charges for the Voice Command feature can be found in the marketing materials for this feature or by calling Contractor's Customer Care.

55. Subscriber Information (Customer Proprietary Network Information)

In the normal course of providing Services to the Purchasing Entities, Contractor develops information that relates to the quantity, technical configuration, type, destination and amount of the Purchasing Entity's use of Services, together with the development of billing information ("Subscriber Information").
